

# Creating Your Developer Accounts

*If you're looking to get an app submitted to the Apple iOS and Google Play stores, we must publish the app using your organisation's developer account. This article will give you a step by step guide covering how to setup your developer accounts.*

For app packages without a Branded Native App, you can still benefit from the native experience by using our Native CrowdComms Container app.

## Apple: iOS App Store

- If you do not already have a developer account for CrowdComms to submit under, the next thing to determine whether your organisation has a [D-U-N-S number](#), issued by Dun & Bradstreet. A D-U-N-S number is a requirement of Apple during the enrolment process. If you have a D-U-N-S number, you are ready to continue. If you are unsure, you can use this [easy look-up tool](#) logging in with an Apple ID. If your organisation does not have a D-U-N-S, you can [register for one here](#) - as a note, this can take between 5-10 business days to receive.
- Visit <https://developer.apple.com/programs/enroll/> and sign in with the Apple ID you wish to use with the Apple Developer Program.
- *If you do not have an Apple ID or would prefer to use a new one, click Create Apple ID to set up a new account. You will be returned to this login screen after creating your new Apple ID.*

- Accept the Apple Developer Agreement

This is a legal agreement between you and Apple.

 [Download PDF](#)

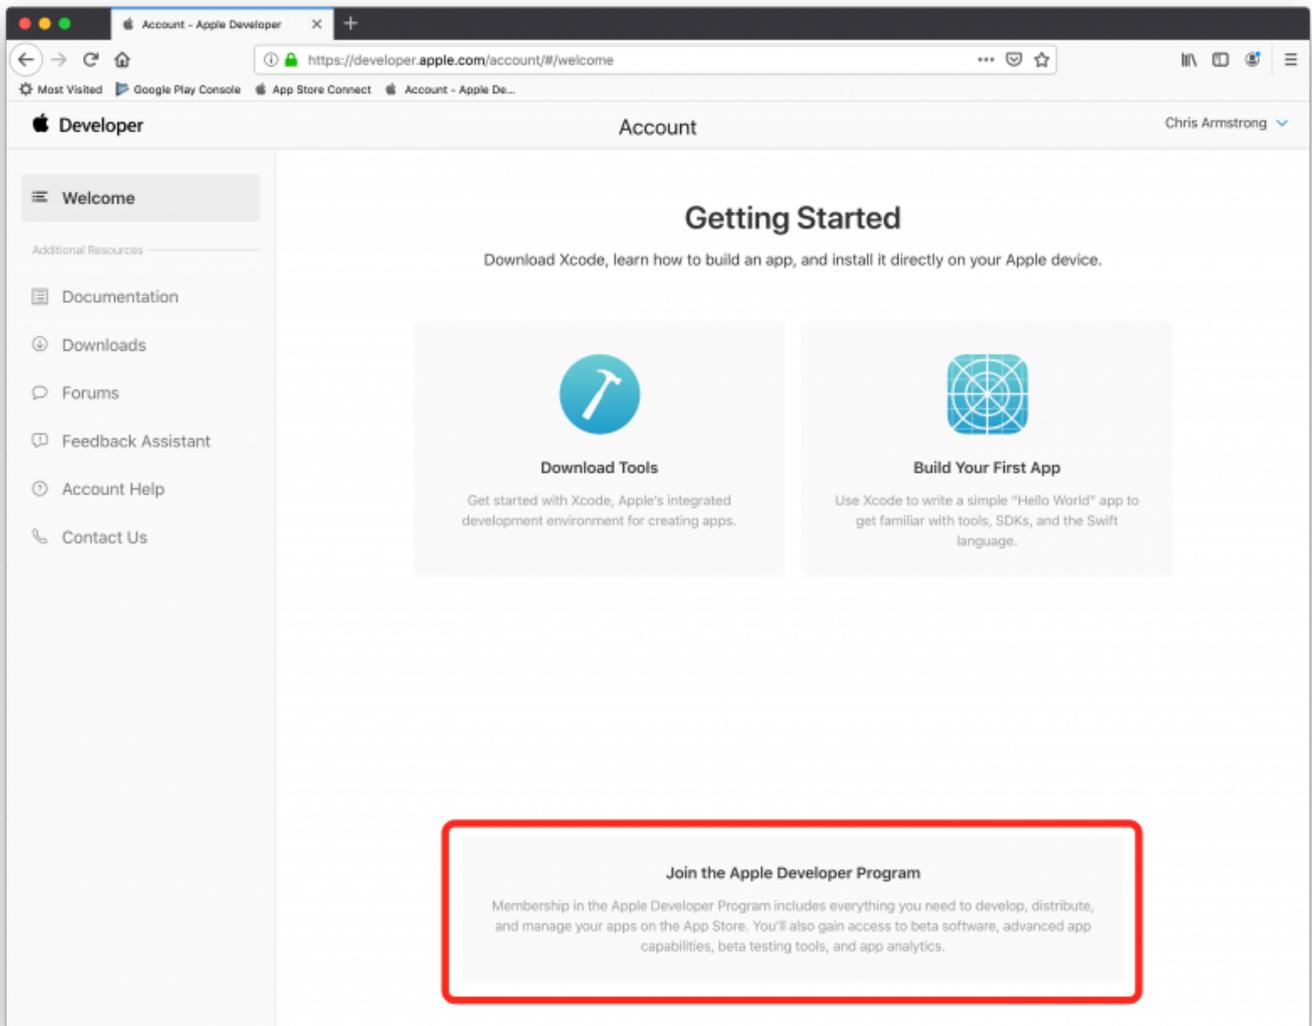

**THIS IS A LEGAL AGREEMENT BETWEEN YOU AND APPLE INC. ("APPLE") STATING THE TERMS THAT GOVERN YOUR PARTICIPATION AS AN APPLE DEVELOPER. PLEASE READ THIS APPLE DEVELOPER AGREEMENT ("AGREEMENT") BEFORE PRESSING THE "AGREE" BUTTON AND CHECKING THE BOX AT THE BOTTOM OF THIS PAGE. BY PRESSING "AGREE," YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, PRESS "CANCEL".**

## Apple Developer Agreement

**1. Relationship With Apple; Apple ID and Password.** You understand and agree that by registering with Apple to become an Apple Developer ("**Apple Developer**"), no legal partnership or agency relationship is created between you and Apple. You agree not to represent otherwise. You also certify that you are at least thirteen years of age and you represent that you are legally permitted to register as an Apple Developer. This Agreement is void where prohibited by law and the right to register as an Apple Developer is not granted in such jurisdictions. Unless otherwise agreed or permitted by Apple in writing,

By checking this box I confirm that I have read and agree to be bound by the Agreement above.

- You'll then be redirected to the homescreen of the Developer Centre. You'll need to click the "Join the Apple Developer Program" outlined below and then click the blue Enrol button. Alternatively, [you can click here](#) to finalise your enrolment.

- On the next page you'll see an overview of the options to register as an Individual or Organisation.

**You will be enrolling as an organisation.**

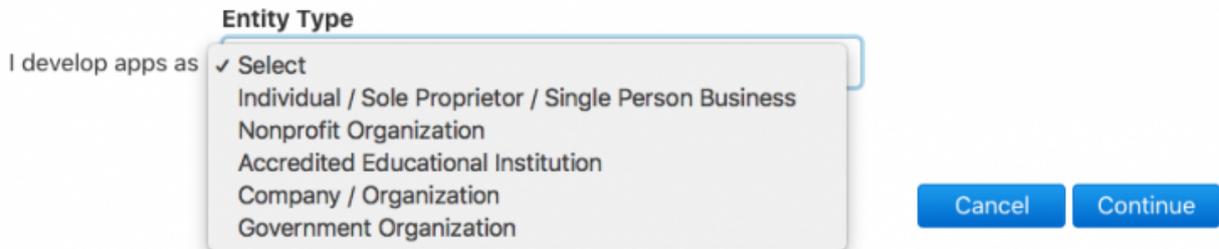

Read through this information and click Start Your Enrolment.

- You'll then be asked to select your Entity Type. The options are:
  - Individual
  - Nonprofit Organisation
  - Accredited Education Institution
  - Company / Organisation
  - Government Organisation

*When selecting Entity Type on creation of an Apple dev account, do **not** select Individual / Sole Proprietor / Single Person Business as this will not allow you to add a secondary developer account*

or grant access to a third party.

Instead, **select Company / Organisation** regardless of it being a single person business. The cost is identical to you, however a Individual / Sole Proprietor / Single Personal Business will not be able to grant access to a third party, which is necessary for us to submit apps on your behalf.

The screenshot shows a form with the text "I develop apps as" followed by a dropdown menu titled "Entity Type". The dropdown menu is open, showing the following options: "Select" (with a checkmark), "Individual / Sole Proprietor / Single Person Business", "Nonprofit Organization", "Accredited Educational Institution", "Company / Organization", and "Government Organization". To the right of the dropdown menu are two blue buttons: "Cancel" and "Continue".

- You'll then be asked to agree to some terms and conditions and complete a form with information about your organisation. You'll then be asked to provide contact information, confirm your Apple ID and select whether you'd like to auto-renew your account.
- The next step will be to process your payment for your annual Developer license. This fee varies based on region.
- Once completed, you'll receive a confirmation email from Apple. Please note that the processing of your developer account is at Apple's discretion and can take between 5-7 business days.
- Once the account has been accepted by Apple, invite CrowdComms to the Developer Centre and iTunes Connect and we'll take the process from there. **Instructions for doing this can be read here.**

## Google: Play Store

- Visit <https://play.google.com/console/developers> and login with your Google account. If you do not have a Google login or want to join the Google Play Developer program with an email address not provided by Google, click "More Options" > "Create Account" before proceeding.
- Continue through the registration process that Google outlines for you:

## Before you continue...

### Accept developer agreement

Read and agree to the [Google Play Developer distribution agreement](#).

I agree and I am willing to associate my account registration with the Google Play Developer distribution agreement.

### Review distribution countries

Review the distribution countries where you can distribute and sell applications. [Learn more](#)

If you are planning to sell apps or in-app products, check if you can have a merchant account in your country. [Learn more](#)

### Credit card

Make sure you have your credit card handy to pay the \$25 registration fee in the next step.

[CONTINUE TO PAYMENT](#)

- Check that you agree to the Developer Agreement
- Then click Continue to Payment
- Google has a \$25 Developer account fee. Process this payment by following the on-screen prompts.
- Enter your account information and developer account name.
