Kiosk Manager

Kiosk Manager

Welcoming technology

Impress with a clever entry statement that revolutionises out-dated registration processes. This unique technology offers multifaceted 'check-in' options, short lines, engaging entry, immediate changes, full-colour double-sided badges, tailored messaging, fully branded designs and branded sponsorship opportunities.

Easy to setup and configure

- Create, configure and activate kiosks at any time from the CMS
- Configure multiple types to create specific registration areas for functions such as VIP or exhibitor check-in
- Scan QR codes on in-app badges, SMS communications or emailed tickets
- Use kiosk touch screens to enter a unique attendee access details to print badge
- Integrates with Registration to collect details on-site

Companion app for staff

- The Kiosk Companion web app enables registration staff to search, preview and edit attendee profiles live and reprint badges
- Remotely monitor kiosk status and statistics
- Web-based interface runs on desktops, laptops and smart devices
- Accommodates last minute changes and attendee preferences

Revolutionise your registration area

- Match to event theme with colours, graphics and branding
- Designed to work with a range of hardware options
- Rapidly produces double sided badges in full colour
- Use smart attendee filters to create unique and dynamic badges
