

# Designing and Editing Badge

- Click on “Libraries” in CMS
- Click on “Badges & Passes”
- Click on “Add a new badge”

- Fill out fields as required.

(Note: A preview of the badge will display update as you design/edit the badge (Profile picture, job title and company will however not update on the preview)

**Badge Name**  
This is for your reference only and will not display on the badge

Badge name  
Give your badge a name

**Header**

Create

1. Badge Name (This can be anything and will only be shown in the list in CMS)
2. The header can be either an image or a colour
3. Select what you would like displayed on the badge; Event Logo, Profile Image, Job title and

Company (Note; the Event Logo displays over the header)

4. If you would like a custom label on your badge, then turn the custom label toggle ON. You will then be able to type in the custom label and the background/text colour of the label
5. Select which group the badge is shown to (People groups determine who this badge is applied to. If a person is 'matched' with multiple badges, the priority of the badge decides which one is displayed.)
6. Click “Create” to create and save the badge.

### Badge Name

This is for your reference only and will not display on the badge
