

# Live Polls: Video Tutorial

Live polling is best set up in advance of your event, as there are a variety of ways you can approach running them and they will require a CMS user to cue the appropriate question at the right time.

This section includes three training videos:

1. Introduction to the live poll module
2. Different setup options for showing polls in the agenda, direct linked, and multi-track polling + Customising the live poll display
3. Managing live polls at your live event

## Introduction to the live poll module

## Setup options and customising the live display

Managing live polling at your event
