  - [Technical Specifications](#)

Scanner

- Gryphon Scanner- GFS4400
- [Technical Specifications](#)

Tablet

- Microsoft Surface Pro 9- 2038
- [Technical Specifications](#)

Mini Kiosk

- L 370mm, W 240 mm, H 275 mm
- Total weight including printer, scanner and tablet 7 kg

Tabletop Kiosk

- L 335mm, W 360 mm, H 490 mm
- Total weight including printer, scanner and tablet 7 kg

WiFi Requirements

- We recommend hard wired internet connection for all kiosks. 5mb is recommended per kiosk. This provides the most optimal setup and ensures any changes to the attendee list i.e. last minute additions or registrants, can automatically print their badges.
- The CrowdComms kiosk manager software will work offline where required. Best practise is to have WiFi / hard wired connection in place.
