

# Building the Video-On-Demand Streaming Service

1. Now that you have all your videos uploaded into your library, you are ready to start!
2. Firstly, click on 'Builder' from the left-hand menu.
3. You will then see the Module tile selection screen appear. Click on 'Video Library' that appears as an option.
4. A pop-up will appear, which enables you to rename the module.
5. Select the type of display you want to appear on the Event App, you have the option of a 'Single Scrolling Library' or 'Multi-Section Library'
  - a. **Single Scrolling** – This will display one feature video with one scrolling list of video thumbnails that fit to the screen.
  - b. **Multi-Section Library** – This will display categorised video libraries, allowing you to separate your content into curated sections.
6. To change the icon and set the module privacy, go to the Settings tab
7. Don't forget to click 'Save' after you have finished editing.
